DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-12, 22, 23, drawn to a scaffold, classified in class 182, subclass 82.
 - II. Claims 13-21 and 24-35, drawn to a method of manufacturing a scaffold, classified in class 182, subclass 12.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made of materials other than flat plates with C or L folds, i.e., the folds can be U-shaped or V-shaped.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
